How to make a pinecone reindeer:

- Head outside to forage for your pinecone and some small sticks
- Break up some sticks and glue to one side to create four legs
- Cut out antler shapes from brown card/felt and stick near the pointy end of the pinecone
- Add eyes and a nose if you wish!

How to create a paper snowflake:

- Take a blank piece of paper and cut it into a square (Tip: if you fold one corner down to form a triangle and trim the excess paper off you'll end up with a perfect square)
- Fold your piece of paper into at least quarters or even smaller if you can
- Cut shapes into either side or end to create a pattern
- Unfold and admire!

Draw your own forest diary:

- Using the colouring pencils and artists pens, draw animals and items from nature
- Tip: head outside and take inspiration from the world around you
